# RESCUE KIT 1 W/POWER TALK BOX

.../ The Command Module is battery powered, compact and lightweight making it completely portable. Three 1.5v alkaline 'C' cells provide 400 hour life on standby and all electronics are fuse protected. A low battery LED indicator gives 12 hour warning battery replacement, which can be accomplished easily via external access to the battery holder.

molded fiberglass enclosures, all external knobs, and signal cables with their Military connectors are impervious to a wide range of acids, alkalis, fuels, and other corrosive chemicals including Skydrol.

All of the above coupled with a highest level of Intrinsic Safe Approval is why you can rely on CON-SPACE Rescue Systems and trust them with your life.

The System and accessories are waterproof. The rugged
