

SKYBOX | Retractable Roof Bodies

BODY SPECIFICATIONS

Standard Features

- Rear and center roof sections manually slide forward converting your chip body into an open-roof vehicle for loading and hauling tall or bulky items
- Roof sections move on a stainless-steel track using maintenance-free oil-impregnated bearings to deliver years of reliable service
- Integral multi-point roof latching allows sliding roof sections to be stowed securely in both the open and closed positions
- Smooth body side panels – ideal for signage
- Rust-resistant, heavy gauge, double-panel galvaneal steel side wall and tailgate construction with galvaneal floor and 3-inch structural crossmembers
- Ladder box with pole pruner shelf and lockable rear door
- LED body-mounted strobe lights (set of 4)
- Undercoating on underside of floor and toolboxes to enhance durability
- Coal tar epoxy bed liner for a rugged, corrosion-resistant interior finish
- Universal White finish paint as standard (Color match paint optional)
- U.S. Patent No. D914,579 and other patents pending
