

This portable skid can be put on any flatbed or in the back of a van or truck! Built to fit between the wheel wells of a pickup the PipeHunter Jr. Skid gives you jetting power on the go. This unit is built with a Giant triplex pump that will give you 3,000 PSI at 15 GPM. Our setup is great for plumbers looking to ease their way into jetting or as a hotshot rig for a municipality. To find out how this jetter can fit into your arsenal contact your local PipeHunter rep!
