

ULTRA SHORTY 21 TRACKED TRANSPORTER

COMPACT. POWERFUL. RELIABLE.

The CUES Ultra Shorty 21 is engineered to take on the toughest inspection challenges in pipelines ranging from 6" to 36" (152 mm – 914 mm) in diameter.

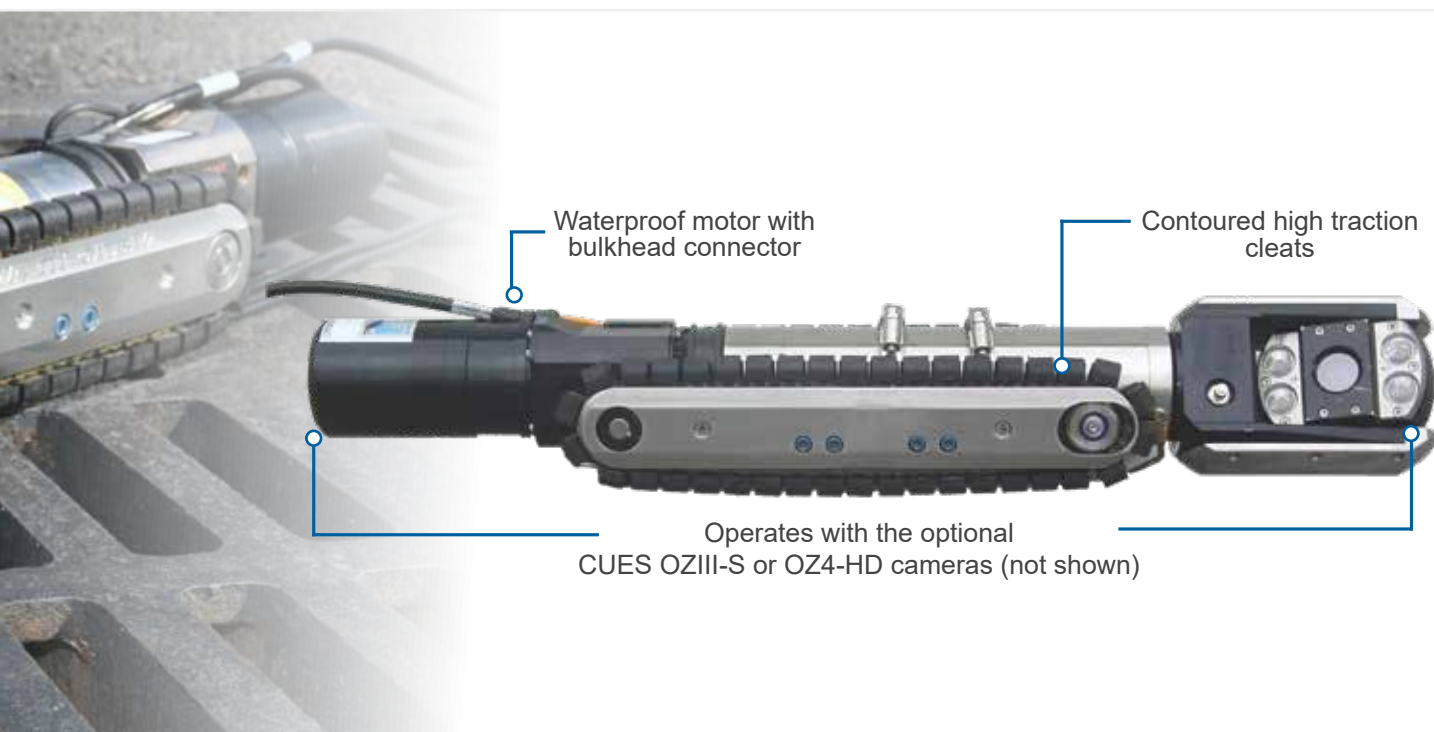

Designed for maximum versatility, this rugged tracked transporter easily handles major offsets, protruding laterals, and demanding pipe conditions. When paired with the optional CUES OZIII-S or OZ4-HD Cameras, Ultra Shorty 21 delivers one of the most compact and effective inspection solutions on the market.

WHY CHOOSE THE CUES ULTRA SHORTY 21?

- Maximum reliability for critical inspections
- Proven durability in harsh sewer conditions
- Compact design for easier deployment and retrieval
- Seamless compatibility with CUES's OZIII-S & OZ4-HD Cameras
- Backed by CUES service and support
- Designed for today, expandable for tomorrow

ENGINEERED FOR PERFORMANCE

- 
Unmatched Versatility: Operates seamlessly in pipe sizes from 6"–36", with adapter blocks to optically center the camera in larger lines.
- 
Compact Power: One of the most space-efficient camera/transporter assemblies available, ideal for confined or challenging inspection environments.
- 
Increased Traction: Weighted track extenders and contoured high-traction cleats maximize pipe wall contact, ensuring steady performance in varied conditions.
- 
Efficient Operation: High-speed power forward, reverse, and freewheel modes make it easy to navigate pipelines and back out of difficult situations, without damaging cable.
- 
Built for Harsh Environments: Waterproof motor with bulkhead connector and self-cleaning drive sprockets deliver reliable performance in mud, sand, and debris.

The Ultra Shorty 21 delivers unmatched reliability in tough conditions. It's compact, powerful, and built to last. Contact us today to schedule a demo or request a quote.

BUILT TO PERFORM. BUILT TO LAST. BUILT BY CUES.
