Blue100 360° Solution

All around:

- Highest possible efficiency
- Adjustable rotation speed
- Modular and expandable, to solve almost any requirement
- Adjustable water pressure
- Any water quality
- No maintenance

BLUE100 EXTENSIONS

Blue80 and Blue 100 Vibro

The Blue80 and Blue100 Vibro breaks solid materials like mineral deposits, concrete wash etc. from the bottom of a pipe. The rotating head creates vibrations which are transferred with the skids into the material.

Blue 100 Spider

The Blue 100 Spider HD „Heavy Duty“ chain scraper can handle even polluted (dirt) or recycled water. It removes roots and solids like mineral deposits as efficiently as any milling tool. The flywheel plate with its kinetic energy is the basis for further applications such as the saw blade, the milling head or the diamond cutter.

SPIDER CHAIN SCRAPERS

Spider products are made for professional removal of roots, mineral deposits and other blockages in pipes with diameter from 80 to 400 mm (3.2" to 16"). Renovations often start with an all-around cleaning of the pipe.

With a nozzle of our Spider series you have the ideal solution. Our Spider nozzles use fresh or exceptional well filtered water.

EXTRA JETS

The seal for efficient, environmentally friendly cleaning.

Extra Jet advantages:

- Hydrodynamically optimized high performance nozzles
- Powerful water jet
- No unwanted/ unnecessary pressure loss

- Enormous savings in fuel consumption, water and time
- Precise pressure build-up through closely standardized water jet inserts

Extra^{ExL} Life Jets

- Ceramic inserts
- Extremely durable, 2 or 5 years warranty*
- Hardened outer nozzle body with elastic core
- Suitable for reprocessed water

Extra^{Exp} Prime Jets

- High-grade steel inserts
- Consistent jet pattern
- Nozzle body made of stainless steel
- Suitable for fresh water only
