PREVENTIVE MAINTENANCE: YOUR “PREVENT DEFENSE”

Just as in football, a prevent defense is placed on the field to guard against big plays, big issues, big problems, and undesirable occurrences inflicting major damage. That’s the benefit of a preventive maintenance program for your municipal equipment. Deploying a proactive preventive maintenance approach helps to avoid equipment failures, downtime, and possible costly repair issues resulting from neglected attention. Essentially, it’s about taking steps to avoid problems before they occur, rather than just reacting to them after they happen.

MTECH’S COMMITMENT TO KEEP YOU UP AND RUNNING

MTech provides service out of our shops located in Cleveland, Ohio, Cincinnati, Ohio and Detroit, Michigan supplemented by our mobile service techs who are routinely on the road throughout Ohio, Michigan, Western PA, Indiana, and Kentucky. We firmly believe that providing the best service means we come to you should that be your preference. All of our technicians are factory certified. We also maintain a complete stock of parts to ensure there are no delays in getting your equipment up and running. We understand our customers are providing essential services to the public which is why we provide 24/7 service. This 24/7 commitment means providing everything from phone technical support to help walking you through a fix or to be onsite as needs may dictate. This onsite service guarantee comes along with all PM programs.

WITH AN MTECH PREVENTIVE MAINTENANCE PROGRAM IN PLACE YOU:

- Avoid costly repairs due to neglected attention
- Maximize uptime
- Fix smaller issues along the way, avoiding major repairs after failure
- Avoid costly emergency repairs and towing
- Optimize equipment lifespan
- Reduce the risks of accidents, liability and safety risks to operators and the public
- Avoid budget surprises resulting from unplanned major repairs

BRANDS SERVICED BY MTECH

PM Programs are available for equipment brands sold and serviced by MTech (Amrep by Wastequip). Customers interested in PM programs for other brands may enroll in an MTech PM program under certain circumstances. Contact an MTech sales representative for more information.

PROGRAM ADDED BENEFITS

- 24/7 Phone Support
- On-Site Factory Trained Technicians
- Priority access to genuine OEM Parts
- Documented PM Checklist Provided
- Repair and Service Recommendations Report
- Operator Refresher Training During Visits
- Priority response scheduling for emergency needs
- 10% off labor for recommended repairs

REFUSE TRUCK MAJOR COMPONENT INSPECTION PROTOCOL

- Loader System Structural & Functional Validation: Rear, front, or automated side loader components including arms, forks, cylinders, rails, pivot pins, bushings, and full-cycle operational testing (lift/dump/extend/retract)
- Body, Packer & Ejector Operational Testing
- Complete Chassis & Frame Structural Verification
- Comprehensive Engine & Powertrain Evaluation
- Transmission & PTO Operational Testing
- Full Hydraulic System Pressure & Integrity Testing
- Air Brake System Performance & Compliance Testing
- Driveline, Axle & Suspension System Evaluation
- Wheel-End & Tire Compliance Verification
- Integrated Electrical, Lighting Control & Safety Systems Testing

ANNUAL PROGRAM PRICING

Annual Visits

1-VISIT \$1,500

4-VISITS \$5,000

2-VISITS \$2,750

Added to annual program pricing:

Travel charge \$500 per visit for onsite service.

CUSTOMIZED SERVICE PROGRAMS BEYOND PREVENTIVE MAINTENANCE INSPECTIONS

MTech can customize in-depth interval service programs for specified requirements recommended by manufacturers at milestone equipment use levels (hours of service, mileage). Contact an MTech sales representative for a customized service proposal.

Refer to MTech preventive maintenance program plan terms and conditions available at www.mtechcompany.com. Plan service addresses the vocational backend of the vehicle and not chassis inspection except in the case of purpose built vehicles. Parts and labor needs beyond those covered by the maintenance program are invoiced separately upon approval. Annual program price is billed to customer in advance.
