

EVOLUTION SERIES 3.0 CUSTOM INTERIOR

DESIGNED FOR TODAY. BUILT FOR TOMORROW.

The CUES Evolution Series 3.0 Interior combines rugged durability with modern ergonomic design to deliver a comfortable, safe, and efficient workspace that operators can rely on, even in the toughest conditions.

Whether your team is inspecting, profiling, sealing, or cutting, Evolution Series 3.0 vehicles are engineered to maximize productivity and operator satisfaction.

WHY CHOOSE A CUES EVO 3.0 INTERIOR?

Operator Comfort & Efficiency -

- Insulated walls and ceilings for year-round interior comfort.
- Ergonomic layout with large tinted safety glass viewing window for maximum visibility.
- High-bright, long-life LED lighting for reduced glare and fatigue-free operation.
- Smooth, weather-resistant finishes that are easy to clean and maintain.

Built for Reliability & Performance -

- Marine-grade plywood cabinets and walls, no particle board or MDF.
- Even-weight distribution for a smoother ride and longer vehicle life.
- Electronic components mounted above the desktop to free up counter space.
- Sliding drawer and lockable storage for tools, accessories, and camera setups.

Safety First -

- Hazard strobe warning lights and directional traffic advisors.
- Side-entry door with fold-out steps and grab handles.
- Modular rear bumper with safety step and grab handle.
- Rear floodlights and retractable LED spotlight for safe operations day or night.

CUSTOMIZATION THAT FITS YOUR NEEDS

Every municipality and contractor works differently, that's why CUES's Evolution Series 3.0 interior can be tailored to your workflow:

- Custom cabinetry, laminate colors, and storage solutions
- Power Boom Crane options for easy deployment and retrieval
- Full restroom, microwave, refrigerator, and washdown system for longer field operations
- Advanced connectivity with WiFi antenna and CAT-5 connections
- Optional awning, intercom system, compressor
- and much more...

EXPERIENCE THE EVOLUTION

The CUES Evolution Series 3.0 Interior isn't just a vehicle, it's your crew's mobile command center, designed to help you work smarter, safer, and more efficiently. Backed by 64+ years of innovation, it's the most advanced inspection vehicle interior on the market today.
